

## All About Eyes

Most Women Worry About Their Eyes

### DREAM BEAMS: ENERGY AND LIGHT SOURCES

Sadick's sleek Park Avenue compound purrs with the sound of devices that, in expert hands, can safely clean up pigmentation, fine lines, and sagging skin surrounding the eyes without any nightmarish side effects. Reclining in an examination chair, Fellows listens to Sadick describe the latest incarnation of Thermage, a deep-heating radio-frequency treatment designed to tighten lax skin by remodeling existing collagen and stimulating new collagen growth. The target: sagging lids and brows, as well as the fat pads that protrude as collagen bundles loosen...
